EDUCATION

B.Tech in *Computer Science & Engineering*

National Institute of Technology, Andhra Pradesh   **08/2018 - 06/2022**

EXPERIENCE

SpringML/ *Associate Cloud Engineer, Hyderabad*   **07/2022 – 11/2023**

- Proficiently utilized a diverse tech stack including JavaScript, Angular, MySQL, Node.js, MongoDB, Python, Flask, and Google Cloud services.
- Developed full-stack applications like MGIC DocAI for invoice analysis, Vehicle-Crash Analytics, and Se- curity Assessment tools for permission management.
- Collaborated with teams to streamline cloud deployments, utilizing services like Google Cloud Run, App Engine, Compute Engine, BigQuery, and Cloud Storage.

INTERNSHIPS

iLink Digital | *Consultant, Pune*   **01/2022 – 03/2022**

- Worked on an analytical and interactive visualisation web application on Grafana using PostgreSQL and ElasticSearch.
- Developed and integrated APIs using Python frameworks like Django and Flask.

Jivrus | *Software Developer, Bangalore*   **05/2021 – 10/2021**

- Developed web applications utilising JavaScript, Node.js, and Angular.
- Managed bug fixing and new feature implementation.

PROJECTS

Vehicle Crash Analytics | Angular, JavaScript, Flask, MySQL, Google Cloud
Web app for state agencies to manage crash data, analyse patterns, and enhance safety measures.

Form Presenter | Angular, JavaScript, Node.js, MongoDB, Material UI
Form Presenter is used for online quizzes, exams, tests, and assessments with the help of time, action, audience, and presentation controls.

Department Management System | Angular, JavaScript, Node.Js, MongoDB
Streamline department operations with the modern solution, utilising Angular, Node.js, MongoDB, and Git for efficient workflow management.

Student Portal | Angular, JavaScript, Node.js, MySQL
A student portal is a web application that allows students to check their marks, attendance, results, and performance information in one place.

Portfolio | Angular, JavaScript, Node.Js, MongoDB
A portfolio project showcases your best work, skills, and achievements in one place, offering a clear view of your capabilities and experiences to others.

TECHICAL SKILLS

- ✓ HTML5, CSS3, DOM, JSON, REST API
- ✓ C++, Java, Python, JavaScript, Typescript
- ✓ Angular, React, Node.js, Flask
- ✓ MySQL & MongoDB
- ✓ BootStrap, Material UI
- ✓ Git, GitHub
- ✓ Data Structures & Algorithms
- ✓ Google Cloud Platform

SOFT SKILLS

- ✓ Time Management, Leadership, Team-work & Collaboration
- ✓ Analytical Reasoning, Problem-Solving

VOLUNTEERING

- **Core Member:** GDSC – NIT Andhra Pradesh by Google *Developers*.
- **Executive Member:** *E&I Cell*, NIT Andhra Pradesh.

CERTIFICATIONS

- Google Cloud Associate Cloud Engineer
- Google Cloud Professional Data Engineer
- MongoDB Basics, Python, MEAN
