SUMMARY

I'm a Full Stack Developer with over two years of experience building secure, scalable, and user-friendly software and web applications using modern technologies like JavaScript/Typescript, Python, Node.js, Angular, React, and databases like MySQL, MongoDB, & PostgreSQL. I've worked on projects like automating stock contract note parsing and developing FamO, a platform for managing family funds. I'm excited to take on new challenges in a product-driven environment and contribute to building innovative solutions.

EDUCATION

National Institute of Technology, Andhra Pradesh — Tadepalligudem, IN
Bachelor of Technology in Computer Science and Engineering — *06/2018 – 09/2022*
- **Projects**: Department Management System, Task-Manager, E-School Management, Student Portal
- **Courses**: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

EXPERIENCE

Software Engineer — 02/2024 – Present
Eternalight — *Pune, IN | Remote*
- Contributing to a fintech project named FamO, which is for families who own multiple companies and investments, which facilitates the management of all kinds of family funds, assets, and cash details in one place.
- Developing contract note parser to parse and fetch contract details, client details the transaction from the contract notes provided by multiple brokers i.e. Groww, Upstox etc.
- Contributing to the feature and API development for cross-functionality to deliver high-quality solutions within project timelines ensuring code quality, reliability, and security through code reviews, testing, and debugging.
- Implementing features including onboard family, uploading companies, Discussions, real-time messaging and push notifications, and contributing to database schema design utilizing JavaScript/Typescript, Node.js/Nest.js, Express.js and PostgreSQL with TypeOrm

Cloud Engineer — 07/2022 – 11/2023
Egen (formerly SpringML) — *Hyderabad, IN | Hybrid*
- Contributed to vehicle crash analytics, MGIC-DocAI, and security assessment tools, developing features new with JavaScript, MySQL, Angular, Python Flask, and GCP, and designed interactive dashboards using Looker and Looker Studio.
- Collaborated with teams to streamline cloud deployments, utilizing services like Cloud Run, App Engine, Compute Engine, BigQuery, Cloud Storage etc.

INTERNSHIP

Consultant — 01/2022 – 03/2022
iLink Digital — *Pune, IN | Remote*
- Designed analytical and interactive Dashboards on Grafana using PostgreSQL and ElasticSearch.
- Contributed to full-stack development focusing on designing APIs using Python, Django, and Flask.

Software Developer — 05/2021 – 10/2021
Jivrus Technologies — *Bangalore, IN | Remote*
- Contributed to the development of various full-stack web applications including Form Presenter and Map My Sheets focusing on JavaScript, Angular, Angular Material, and Node.js.
- Designed interactive and fully responsive UI features, optimized the code into reusable components, and fixed bugs.

TECHNICAL SKILLS

Languages: JavaScript, Typescript, Python, SQL(MySQL, PostgreSQL), NoSQL(MongoDB)
Frameworks: Angular, React, Node.js, Nest.js, Express.js, Flask, Material UI
Developer Tools: Git, Google Cloud Platform, Visual Studio Code, MongoDB Compass, MySQL Workbench, DBeaver
